Audit Conclusion and Recommendation:

The objective of the re-certification audit was to confirm the continued conformity and effectiveness of the management system as a whole, and its continued relevance and applicability for the scope of certification based on Standard ISO 9001:2015 at **National Aluminum Factory Co.** Legal requirements verified. Commercial Registration certificate No. 1010065488 from Ministry of Commerce valid up to 27-03-2028 verified and found valid. Industrial Investment license # 1030115297 from Saudi Arabian General Investment Authority valid till 21-06-2026 checked.

During the audit, random sampling technique was used to verify compliance, and all audit findings are based on samples selected for verification purposes. Objective evidence collected by reviewing the documents, interviewing staff, and verifying records related to Quality Management Systems.

The top management extended full cooperation and support during the audit, which helped the auditor to achieve the audit objectives. The Organization has developed a quality manual, quality procedures, operational procedures, quality policy, and quality forms. Objective evidence was collected by reviewing the documents, interviewing relevant people, and verifying records related to Quality Management Systems. Required documentation and related records were well presented during the audit.

Operational Planning and controls were found effective. Design & development process was effectively verified. The management review meeting and internal audit were conducted effectively. Documented information related to internal auditing and management review meetings were verified, retained documents were established and found effective. SMART objectives to improve quality were defined and communicated to the concerned in the form of KPIs.

The auditor ensured that there is a management system in place which is fulfilling the requirement of ISO 9001:2015.

During a sample-based audit and verification of provided evidence, it is concluded that:

- The scope has been verified and the management system established has all the necessary processes and capability to meet the applicable requirements for the recommended scope.
- Internal audit and management processes were verified and found effective.
- The audit objectives have been achieved.
- The organization had effectively implemented and continually improved the Quality Management System as per the requirement of standards ISO 9001:2015.
- There is no CAR of any category that has been identified; therefore, **National Aluminum Factory Company** is recommended for the continuation of its certification to ISO 9001:2015 standard after successful completion of the re-certification audit.
